COLORADO CHAPTER

Upcoming Events

THE ANNUAL AUTUMN 2022 GENERAL MEMBERSHIP

BREAKFAST WILL BE HELD ON 10 SEPTEMBER

AT THE TIN CUP BANQUET ROOM, 50 S. PEORIA ST.

BREAKFAST WILL BE SERVED AT 0900.

MEET & GREET THE ALUMNI & FAMILIES & FRIENDS.

CURRENT AND PAST MILITARY & CIVILIANS AND THEIR

FAMILIES & FRIENDS ASSOCIATED WITH LRD/AFTAC ARE

WELCOME. TWENTY-SEVEN HAVE SIGNED UP TO DATE.

ANNUAL VETERANS DAY/FALL DINNER

WILL BE HELD ON 12 NOVEMBER 2022

AT THE TIN CUP BANQUET ROOM, 50 S. PEORIA ST.

DETAILS WILL BE PUBLISHED WHEN AVAILABLE.

Errata

The May 2022 issue of *Echoes* article "19 February 2022 Breakfast Recap" by Maureen Hampson should have said that President, Bryce Dunn then asked Bill Schmied to join him, at the podium, where Bryce presented Bill with a "Certificate of Accomplishment" in recognition of Bill's faithful years serving the chapter, in variety of positions, since 1987.

11 June Picnic Recap

By Ken Behrens

Our annual picnic was held on Saturday, 11 June, from 10:00 a.m. to 3:00 p.m., at Matney Park, 5790 Lantern Circle, Castle Rock 80014. The chapter furnished burgers, brats, hot dogs, lemonade, potato salad, chips and watermelon. The grilling duties were done by Bryce Dunn assisted by Ken Behrens. Several members brought additional food and dessert items which rounded out a fantastic spread.

Fourteen members and spouses attended and many “war stories” were shared, some of which were actually true. The weather was wonderful and not at all like last year when we had very cool and cloudy conditions.

If you were not able to attend, you missed a great time of fun and fellowship. Start making plans to join the festivities next summer.

Sage Salute for Ed Lindsay

Published in the 2022 August *Post Monitor* (used by permission)

SAGE SALUTE ED LINDSAY

Our Alumni **SALUTE** for the April 2021 POST MONITOR (PoMo) was Ed . Lindsay, when we honored him as the Alumni of the Year (AOY). Generally, when we select our AOY, we realize that many of their accomplishments for the Association have already occurred, but some of our AOYs just keep on giving. **Ed Lindsay** is certainly one of those members.

Ed wears many hats in the Association. Having previously served as President and Vice President, Ed is currently our Secretary, Sage Shop manager, and Website Chairman/Media, and he has just recently assumed (temporarily) the duties of Membership Chair.

In addition to all these volunteer duties, Ed recently served as Master of Ceremonies of the 2022 Worldwide Reunion. He even enlisted his daughter, Angelina, to take pictures at the event. Ed also organizes our spring and fall Golf Tournaments. I guess Ed has not learned to say “NO” – and that’s a good thing for us!

Thank you, Ed and Angelina, for your devotion to the Association. We would need several volunteers to replace what you do for the Association.

Angelina

From the Group Leader

By Bryce Dunn, President

Since our last newsletter in May 22:

- The Florida Chapter hosted the World-Wide reunion at Port Canaveral 18-22 May. A sincere thank you to the Florida Chapter (Sean Ryan, Phil Godfrey, Ed Lindsay and the many other Florida Alumni) for putting on an excellent reunion. Sue & I really enjoyed the gatherings the events, the Starliner launch, and getting together with old friends and making new ones. Well done!
- We hosted our annual picnic on 11 June at Matney Park in Castle Rock. Thanks to the Castle Rock Parks for once again letting us use their pavilion and facility at no cost. Also, thanks to the alumni that brought some yummy dishes to enjoy.
- Mega Kudos to Major Nathaniel P. Anderson, ACC Det 45 Commander, MSgt Logan C. Multer-White, ACC Det 45/CCF and their team, for including our alumni in the Detachment family day activities on 30 June which included a mission brief and BBQ. Also, a special thank you to Alumni Vice President Darrel Kline for his coordination between Det 45 and our alumni for this outstanding activity.

Our upcoming activities are: the September 10th breakfast at the Tin Cup banquet room and our November 12th fall/Veteran's Day dinner also at the Tin Cup. Looking forward to seeing you all at these activities.

The main goals of our organization are to communicate information to our alumni (including newsletters), provide a single point of contact for Colorado alumni, and provide venues to physically get together to share some camaraderie. If you have any comments, suggestions, factual stories or Barely Substantiated tales to share, we would love to hear from you. If you could please drop us a line to president@aftacco.org, vicepresident@aftacco.org, publisher@aftacco.org, and/or webmaster@aftacco.org and let us know your thoughts we would appreciate it.

One item we have tossed around is whether or not the Colorado Chapter should offer a life-time membership similar to the Florida and West Coast chapters (both currently at \$75). Let us know that you think.

Sometimes you wonder why things happen when they do. As I looked at some of the past editions of our Echoes newsletter to get some ideas for this September 22 newsletter, I realized that it used to have a different title – originally Ben Vlassick named the newsletter 'Echo's'. Current editions are titled 'Echoes'. When did this change occur? I wondered. I will leave the 'Echo's' vs 'Echoes' to the English majors. Researching the newsletter archives I found that the first occurrence of the 'Echoes' title was in the June 2005 edition. I went back and read that edition and saw that it included a thank-you letter from our oldest son, Daniel, who was on his first tour in Iraq in response to a nice card that the alumni sent to him. Thank you past President Jack Smith (deceased) and editor Bruce Deffler for including Daniel's letter. Also thank you Ken Behrens and Bill Harris for preserving the newsletter archives and thank you alumni for honoring our veterans. Most of all, thank you Daniel for your service to our country. Our alumni are a great family & I am honored to be a part of it. Stay safe & hope to see you at one of our activities.

Bryce Dunn,
President

2022 AFTAC Worldwide Reunion

by Sean P. Ryan, Chair, 2022 AFTAC WWR, & Phil Godfrey, Vice Chair, 2022 AFTAC WWR

Published in the 2022 August *Post Monitor* (used by permission)

THE 2022 AFTAC WORLDWIDE REUNION

The 2022 AFTAC Worldwide Reunion (2022 AFTAC WWR), was truly an awesome time and event, making it one of the best we have ever had! Seventy-two fellow Alumni from 14 states, and 1 guest from overseas, gathered in sunny Cape Canaveral, Florida, for the 2022 AFTAC WWR. Our Theme this time was "75 Years Monitoring Earth & Heaven since 1947." It marked a perfect opportunity to gather and celebrate AFTAC's 75 years of Long Range Detection (LRD) excellence and the 75th Birthday of the United States Air Force. Mired in stories and steeped in tradition, members seasoned and spry proffered tales of AFTAC days gone by, but not forgotten. The 18th - 22d of May assembled a cast of characters from parts known and unknown to share stories, beverages, and laughs. It was wonderful to see so many folks from all over the lands arrive in style, to participate in the events and activities the reunion team had planned.

AFTAC World Wide Reunion
Cape Canaveral - Florida
May - 2022

Those staying in the fabulous Radisson Resort at the Port hotel in Cape Canaveral, generally arrived on Wednesday. Each Alumni and their guests then signed in with Barb, the representative from A Complete Reunion. This made sure that they each received a goody bag and knew the layout of the Hospitality Room. It was the Hospitality Room that proved to be the command post and gathering place for the reunion, for the duration of the week, fully stocked with spirits, suds, and snacks, Alumni spent many hours catching up with old friends and making new ones. There was also a display of notable events and people from AFTAC's past to add to the ambiance, as well as hand-carved medallions commemorating the 75th year of LRD and the USAF, available for a donation. These were expertly crafted by Mr. Mark Bitter, also an AFTAC Alumni, and the proceeds went to support the planned AFTAC Memorial in front of the current HQ. The Hospitality Room truly had it all this year.

The resort festivities began on Thursday night with our traditional Icebreaker. Attendees arrived in the main ballroom of the resort, dressed and ready to kick off this reunion the right way – with aplomb! This event was emceed by our own past President, CMSgt (Ret.) Ed Lindsay, who made sure all were entertained and sufficiently lubricated. Ed traveled the room making sure folks connected and mingled, which really wasn't that hard since AFTAC'ers are a big family! That evening, also, a nice surprise for our WWR guests was the launch of an Atlas V Rocket with Boeing's Starliner Space Capsule. A total "Awe" moment for those who have never seen a rocket launch LIVE!

Continued on page 7

2022 AFTAC Worldwide Reunion

Continued from page 6

As noted earlier, the Hospitality Room was the Command Post. Intelligence reports (and we always trust Intelligence, right?) firmly state that all information both heard and delivered in this hallowed room was 100% true. Your Reunion planners, and heck, anyone else we could rope in, made sure the truth serum was well stocked and ready, and tales of past battles were shared, by elixirs of courage. Mike Johnston had some of the best tales on many a night. Even more amazing was hearing of the past conquests of Gene Melchior, Dee Melchior, Dan Gilb, and Michael Clark – but, there were so many other fascinating conversations in our Command Post that we can't name them all. During the entire reunion, the Hospitality Room was the place to socialize, chat, relax, and catch up with old friends and family members. The most typical remark overheard was, "Do you remember when we....?" That was usually followed by some hearty laughter.

The highlight of the Reunion was the visit to the AFTAC Headquarters on Thursday morning. Most attendees and their guests decided to attend this event, which began with a briefing by the AFTAC Commander, Colonel Katharine Branson, and included a tour of the new AFTAC Heritage Room. This room holds amazing artifacts from our history and provides a place to connect current AFTAC'ers with the legacy built by all of us Alumni. Most importantly, the AFTAC HQ visit was to celebrate the addition of three Alumni members onto the sacred AFTAC Wall of Honor (WOH). Adorned with names like Singlevich, Ciambrone and Northrop, this day saw Colonel (Ret.) Jim Whidden, SMSgt (Ret.) Frank Calenda and MSgt (Ret.) Curtis Smith (deceased) forever enshrined on the WOH, which honored their significant contributions to the AFTAC and LRD missions over the years. This was a truly special event and a joyous occasion for these Alumni and their special guests. Attendees finished this event with an awesome Burger Burn cookout at the AFTAC Pavilion hosted by Mark Bitter and the AFTAC Memorial Corporation, before it was back on the bus for the short trip back up Highway A1A to the hotel.

Friday brought with it dreams of Space. No, we didn't launch any purveyors of bad intel into space, though there were some volunteers. So we did the next best thing. Sixteen guests boarded the Alumni Express (a bus-shaped armored vehicle) and plotted a course for the Kennedy Space Center Visitor's Center. This fine establishment has changed a lot in recent years, with the addition of a real Space Shuttle, the Atlantis, and many more flamey-rockety things in the Rocket Garden. The KSC Visitor's Center offered our Alumni a fantastic view of the latest in space technology, and was a great avenue to explore the very best of NASA's history. Once there, our Alumni performed heavy recon of the grounds and establishments, taking careful notes and imagery of anything suspicious. I heard several tales that items of great value were retrieved from the enemy trading post, and that KSC's rations were enjoyable.

Saturday, the peak of the Reunion, brought us to the Reunion Banquet that night. This feast assembled the vast majority of our attendees for a night of great celebration of each other and our shared time in the AFTAC and LRD missions. This event was held in the resort's main ballroom to exquisite standards, and well serviced by attentive and friendly Radisson staff. No MREs here, the meals were a delicious selection of Chicken, Beef or Vegetarian and the dessert was quite outstanding. The Uniform of the Day was "Dress Nice," and folks did just that – and looked dashing and fabulous! Also emceed by Ed Lindsay, with help from Sean Ryan, the dinner and drinks inspired fellowship and conversation, but more than that, connection and family. It's connection and family that glued AFTAC together over the years, and still does in the Alumni corps.

To celebrate our history of victorious excellence, the reunion team enlisted the help of the Aloha Hula of Brevard Dance Team. This fantastic group of talented performers, brought joy and wonder to the banquet. I don't know how they move

Continued on page 8

2022 AFTAC Worldwide Reunion

Continued from page 7

like they do, but I'll bet it hurts! The Hula we witnessed was simply wonderful and amazing and should remain a closely guarded secret by all of us, for they provided a morale boost the enemy could only wish for!

The highlight of this night was the Keynote Address by the AFTAC Historian, Dr. Mike Young. Mike did an amazing and outstanding job reminding us of all of the impact we've had on the science of Nuclear Treaty Monitoring, and on national security policy for over 75 years. Dr. Young has done stunning work cataloging and documenting AFTAC's history during his 12-year tenure as the AFTAC Historian, and we were all so honored to have him as our Keynote on this special night. Mike has since retired, and he let me know that he felt it was a "perfect way to finish his career" as our Keynote Address speaker. Dr. Young's support for the Alumni over the years is too vast to fully describe here, and we greatly appreciate all his efforts, and sincerely thank him for them.

Sunday morning brought a buffet breakfast and travel outbound to other duty stations for our Worldwide Reunion Attendees, having secured victory of the primary mission: Fellowship, Fun, and Celebration. While the pandemic tried to keep us apart, it was defeated in the end by our uncanny sense of courage, dedication to our legacy, and good ol' fashioned hard work. Your Alumni team was so happy you came – it was wonderful to see each of you and catch up. Thank you so much for joining us and others!

Finally, none of this could have happened without Volunteers, chief among them, Mr. Sean "Radar" Ryan. Living up to his call sign, "Radar," expertly planned the mission with the skills of a hardened General and the grace of an F-16 in flight. We all owe Sean a huge (Atomic) thank you for a successful event. Other volunteers, Sages, and shoulders to cry on include Michelle Ryan, Phil Godfrey, Frank Calenda, Judy Henderson, and Ed Lindsay for the absolutely instrumental planning support and strategy. Thanks to Tony De Marco (for the super cool commemorative coasters), Bob Wiley and Frank Hall (for the historical display), Angelina Lindsay (for her amazing photography and great conversations), The AFTAC Memorial Corporation (for the Burger Burn), and Mike Clark (for the amazing CTBTO presentation). I'm sure I'm leaving a few folks out, but we thank you too!

Remember, the AFTAC Alumni Association is an all volunteer organization, and it takes all of us, to make things go. But we are not immortal. Our last thank you goes to Mike Steskal, our Membership Chair. Mike passed away on 27 April. Mike was a friend to all and played a big role in linking us up with the reunion planning company we used. He also was a huge part of making sure we could contact all of you to advertise the Reunion, which was two-years in planning, and gave us great advice on what to include in the Reunion. Mike was a vital member of the AFTAC appointed Board, but more than that, he was a dear friend who would have loved to join us for this Reunion. His passing was unexpected and hit all of us very hard. Mike, we felt your spirit – thank you dear friend, and accept our salute.

We can't tell you when our next Reunion will be yet, but the 2023 SnowBall is right around the corner. We hope to see you present for duty at our next muster! *Until then, "In God We Trust, All Others We Monitor"!*

Sincerely, Sean P. Ryan, Chair, 2022 AFTAC WWR, & Phil Godfrey, Vice Chair, 2022 AFTAC WWR

Retiree personnel services available 24/7

The Total Force Service Center can deliver personnel services to the retiree family via telephone any time and from any location. To

reach a Total Force Service Center agent, call 800.525.0102 and select the menu option for retired military with personnel inquiries.

Note: Expect a long menu of options to select, but you will find some useful information.

Editor's Corner

By Ken Behrens, Editor & Publisher

I am including the recap of the Det 45 Family Day activities in the Editor's Corner so that everything will fit in 12 pages.

Our thanks go out to Major Nathaniel Anderson, Det 45 Commander and MSgt Logan Multer-White, Det 45 Sr. Enlisted Leader for including the Alumni in the festivities. Additionally, many thanks to our Vice President Darrel Kline for co-coordinating the visit by being the point of contact to get the Alumni cleared to attend the event. The Alumni people attending were Dave Albers, Bill Milnor, Larry Johnston, Matt and Kay White, Ken Behrens and Cyndie Wozniak-Behrens. After we were picked up at the Safeway parking lot and issued our visitor badges, we were treated to a great mission briefing by SrA Kaleb Perez and SSgt Alexander McKenzie. The presentation and visual aids were superb and gave us a in-depth look at the mission. The Q and A session gave us a chance to get more information about the evolution of the program over the years. After the mission brief, we moved out to the pavilion for a wonderful

lunch of brats, hamburgers, and hot dogs. All of which were done to perfection and quite delicious. Near the end of the lunch period, we had bit of rain but it did not dampen the fun and food we had.

Matt and Kay White traveled to Encampment for the Living History Days at the Grand Encampment Museum. He provided this summary of their visit: "Even though I hadn't seen a Develacorder in 54 years, it seemed second nature to take it apart. We did enjoy homemade ice cream, I got to print a newspaper page and I enjoyed watching and visiting with the lady running the spinning wheel. I had never actually watched someone spinning before. And of course there was all manner of 'mountain man' stuff for sale". I am happy that we had an Alumni attend the celebration. Cyndie and I opted to forgo the trip because of the price of gas and the escalating cost of all things.

I want to pass on some information to all of you who use Uninterruptible Power Supplies (UPS) to keep your gear running during a power failure. I had a UPS connected to our TV and Dish Network DVR and one morning I could not power up either of the devices. I had forgotten to replace the batteries in UPS after they were in service for 3 years. The batteries just quit and when I checked the date of when they were last replaced, it was 4 years. I immediately replaced them and 2 days later we had a power failure. Both devices had a run time of about an hour and half on the display. The second UPS that powered our 2 computers in the den shut down as soon as the power failure happened. Checking the date on that UPS, it was almost exactly 3.5 years ago. Luckily, the power came back on after 50 minutes of outage. The other 3 UPS's that power my server and machines in the office were in good shape with battery replacement dates coming up on the 3 year mark over the next 4 months. I use painters tape to note the date the batteries were replaced and I will be sure to replace them after 3 years of service and not the 5 years some pundits claim is the norm. Moral of the story is to be sure you have protection, replace the batteries at the 3 year mark. I use Batteries Plus to do the work because they give active duty and vets a 10% discount on all purchases.

Past — Present — Future

AFTAC Memorial **“WE’RE UNDER CONTRACT!”**

By Lou Seiler, President AFTAC Memorial Corporation

The AFTAC memorial Corporation (AFTACMC) (a Florida non-profit 501(C)3 corporation) has for the past 40 months been conducting a fund raising to construct a memorial to those AFTACers who have passed away while in active service to AFTAC. Well, all the hard work is close to being a reality....we have signed a contract for the production of the granite memorial elements!

As of July 2022, we have raised a total of \$62,000 in the building fund. Since this amount is less than what was needed to build and install the original design, the AFTAC Memorial Corporation Board of Directors has downscaled the design to something attainable in the very near term, while allowing for future expansion should proper funding be available in the future. The reduced design is similar to the original, but limited to two of the four “wall panels” in the original concept, a pair of benches and the center pedestal without the “ion” sculpture. A revised artist concept is shown below.

The expected timeline from contract issue to completed installation is estimated to be 8-9 months. If all goes as expected, we should see an installed memorial in the April-May 2023 time frame. But having a contract for the topside memorial elements doesn’t mean the work is over, a couple of government paper work items (aka Red Tape) are still being completed. And, this does not mean that no more donations are needed. There will be names added to the memorial on a hopefully limited basis, but history tells us that that rate is on the order of one per year. In addition, the Li ion sculpture needs to be added, and of course there is regular maintenance required to keep the memorial looking clean and meaningful. Donations to date include over 110 separate donations ranging from \$30 to \$10,150. Donations in any amount are appreciated, the designation levels are:

- \$1-\$149 – Donor,**
- \$150-999- Brick ,**
- \$1000-2400- Bronze,**
- \$2500-\$4999- Silver,**
- \$5000-\$9999- Gold, and**
- \$10,000-up – Platinum**

So we ask each of you to consider a donation to make this Memorial happen. It can only happen with YOUR help. Donations for any amount can be made by a check made out to “AFTAC Memorial Corporation” and mailed to AFTAC Memorial Corporation, P.O. Box 372012, Satellite Beach, FL 32937

Or you may also navigate to <https://brickmarkersusa.com/donors/aftacmc.html> to go to the brick order website. From there you may download a donation form, order a brick on-line, or make a donation only, and pay through PayPal using your credit card or through your own PayPal account. We ask again for your help to build a lasting Memorial to the men and women who have served AFTAC for the past 76 years, and continuing into the future. It is your decision to make!

Message to the Alumni from the AFTAC Commander

From the August *Post Monitor* (used by permission)

Colonel James “Cobra” Finlayson, Commander

Greetings to all the AFTAC giants out there, past and present! I'm thrilled to have been asked to contribute a few words to your newsletter, especially since I have heard so much about your legacy, the alumni association as a whole, and your continued efforts to stay engaged with the workforce in a variety of ways.

I believe the Post Monitor editors are including my official biography in this quarter's newsletter, so I won't bore you with the details of my past military assignments, education and job titles. What my bio doesn't cover is something I like to refer to as “Cobra's Countdown” – sort of a list of rules to live by based on my philosophy of being a commander and an Air Force leader.

I attribute a lot of who I am to how I was raised and where I came from. I was born in Heidelberg, Germany. My dad was an Army Warrant Officer, and like all military families, we moved around a lot. I call El Paso, Texas, home since I graduated from Austin High School in 1993, and from there I was fortunate enough to attend the U.S. Air Force Academy. I spent the next 25-plus years traveling the world, applying my skills, contributing to the DOD mission, and meeting incredible people along the way.

When I first sat down with my staff here at AFTAC, I relayed four parts of Cobra's Countdown: contact, initiative, communication, and balance. Pretty simple stuff when you boil it down, and I find that keeping things simple is a big key to success.

Contact. I like to walk around a lot and ask questions. I'm inquisitive by nature, and I think one of the best ways to learn is to ask the experts about what they do, how they do it, and why it matters. I love learning new things every day!

Initiative. Quite frankly, the best ideas most often come from the bottom up, not from the top down. All too often I think senior leaders lose sight of that concept. As General Colin Powell aptly said, “Never let your ego get so close to your position that when your position goes, your ego goes with it.”

Communication. It is crucial! We live in a world where a constant stream of information – more like a GLUT of info – comes at us every hour of every day, whether it's email, texts, online messages, Tweets, Facebook posts, phone calls, or breaking news on TV. It's always coming at us. But I am a firm believer that communication should be tailored to ensure the person receiving needs it at that moment in time, or if it can wait.

Balance. As the saying goes, your personal life will long outlast your Air Force career, so it's important to make sure your life is in balance. I imagine those reading this are long since retired from active duty, and you know this saying better than most! Having a career is great, but having a balanced family life is even better.

And speaking of family life, I am blessed to be married to my amazing wife, Kristen, and we have two beautiful daughters together – Aurora and Audrey. They are the ones who bring balance to my life!

I hope that gives you a little insight about me, and I'm looking forward to meeting you at one of the many AFTAC functions that our great alumni support during the year. Be sure to make a point of introducing yourself – I want to shake the hands of all the legends who are the foundation of AFTAC's continued success. Thanks for all you do to make our center better!

Cheers,
Cobra
